What He REALLY Means When He Says... - The Ultimate Guide To Understanding Men, Knowing What They REALLY Think And How To Read Their Minds In Every Situation

Synopsis

Is He Really Into You? Why Won't He Commit? Why Didn't He Call? Do You Want to Know the Answers to All of These Questions and So Many More...? Men and women are like the yin and yang: completely different, but the perfect complement to one another. Sadly, most of us go through life without the first idea what the opposite sex is thinking or why they're thinking it. This book will unlock the secrets of what's going on in his mind. And with those at your fingertips, you'll be able to find love, win his heart and build the relationship you've been dreaming of. I've spent my career helping women find true love, and now I'm here to help YOU find yours. Hi, I'm Eric Monroe. I'm a relationship expert, it's what I do for a living. I've spent my career analyzing relationships to work out what makes people tick and I've helped countless couples find love. The biggest issue I encounter when I'm helping my clients find love is that they simply don't get what the other gender is thinking. It's a situation that's ripe for misunderstanding and, if you don't know what he's thinking, how can you hope to win the dating game once and for all? Give Me ONE DAY and I'll Give You a Glimpse Into the Inner Workings of His Mind. Give me three and I'll help you understand exactly what he's thinking, why he's thinking it and how you can use that knowledge to foster the love, romance and trust you've always wanted. In this book, we'll cover: The differences between a man and a woman that your momma never told you. How to tell if he's really into you, or if it's all just talk. Why he didn't call you and whether that means he doesn't care. What he's really thinking when things go wrong. And much, much more. If You Don't Read This Guide, You Will Never Know What's Really Going On in His Head! I'm going to show you how to understand your man and how to make sure that what you're saying is what he really needs to hear. Hundreds of women have already benefitted from this advice. You are ten times more likely to get a second date, get serious and get moving towards a lifelong commitment if you read this guide than if you don't. All it takes is to read this one book and you'll notice a difference in how well you understand your man within days and all for less than the cost of a box of chocolates. Understand What He's Thinking in Less than a Week... or Your Money Back! If you read this guide yet still can't read his mind, simply click one button within 7 days and I will return 100% of your money. That's how confident I am that I have the answer to your problem. Customer Reviews

In short, â œWhat He REALLY Means When He Says...â • is the type of book that I consider to be an absolute must read and even though I just finished it, I can definitely see myself giving it a reread in the future to keep what Iâ™ve learned fresh in my mind. The author offers readers genuinely professional advice, and I could personally gather from the first few chapters that this isnâ™t the type of book that is created with reused, recycled information that can be found just about anywhere on the internet with ease. As well as this, I also found the read to be quite entertaining in a way â “ far from feeling like a chore to read â “ simply because the writing style has a very relaxed, almost conversational-like undertone added to it. The book is clearly aimed mostly toward a female audience, but I personally think that both sexes could find some insight and value from this read, and on that note, I canâ™t help but recommend it to others. Definitely worth the read.

It's too true that men are not often analyzed enough, but are instead lumped into categories and stereotypes (especially when it comes to certain appetites and the reasoning behind them). This book does a great job finally telling women (and interested men?) how it is, letting them know that there is more behind a man's desires than what your mom may have taught you. And it's broader

than that too - the book explores multiple areas of the male psyche, and does so in a conversational tone that will keep you engaged.

This is a very Awesome Book. I truly learned a lot from this book. Actually, as a man myself, I've learned lots of important aspects on my life through this book. I've identified now, why I do what I do, what should I need to do, and how to react and act in a manly way. I really like this book. Eric Monroe truly digests what it really means when man is doin' something, why is he doin' it, what is his intention, whether it's good or bad for relationship and many more. I've truly received lots of manly advice from this book. I think this book should not be read by women, but also by men, so that we too would be more aware on what we're doing. Overall, this book is awesome. And I highly recommend this book to every woman who wants to know their man, and to every man who wants to learn awareness on their doin'. With that, I'd give Eric Monroe and What He Really Means When He Says a Very High 5-Star.

What He REALLY Means When He Says is such an insightful read. It might be a short read but inside is packed with very useful knowledge about men and how to have a meaningful and healthy relationship with them. Lots of *ah ha!* moments and this book really made me look back at previous relationships and see where you could have used some of these tips. I will definitely try following these tips in my (now) relationship.

I love this book, It made me understand a lot about my past relationships and what I've done wrong, and why my ex wouldn't commit. Everything is now clear, I just wish I knew about this book before, it would have made things easier for me. I think every woman NEEDS to read this book, it could save us a lot of pain and tears and suffering, that is for sure.

I was smiling while reading this book because most of the parts here I totally agree with. I strongly believe that what Eric Monroe's saying about a guy's concept of sex is true. I can relate on the part where I finally came to the part that I want to stop being just another one night stand. And yes I did a lot of mistakes because I was clueless on men psychology I guess, looking back- I can just laugh about it! I was surprised because I did exactly what he stated on that part a few years ago. That's one thing I can assure you girls out there, listen to this book. You would definitely know your next date if he's a player or a keeper. If he's a player, you will gauge what type of player category he is, ironically. I enjoyed reading this book and I highly recommend this book to all the single ladies

who would want to be in the right track of seeking your potential partner in life.

No doubt, this book is a must guide if you really want to grasp how a man's brain functions. Most of the time women tend to misunderstand men's words or actions and even go further to end relationships which otherwise would have had a great potential to grow and offer happiness to both partners. The book helps a woman to achieve an excellent communication without these misunderstandings, build real and affectionate bonds and at the same time offers a really deep insight into a man's way of thinking, along with a good dose of humor! I enjoyed every page to the end! A very useful book for all women!

The author is a true man of God. Ladies if you are truly awaiting on your understanding your man this book is a must read. The author teaches in a way that is simple to read and understand men's mind. If you follow God's guide and his way it will truly be more than worth the wait. After reading this book I am no longer anxious or in any way in a hurry but instead patient and using the tools that God has blessed the author with having the knowledge and heart to share. Thanks again, what an investment that I surely will read I'm sure more than one time. Ladies get the book!!!
