Astrology: Your Complete Guide To Understanding Zodiac Signs: How To Become More Successful, To Improve Your Love Life And Become Happier (Free Bonus Included!) ... (Zodiac, Zodiac Signs, Horoscope Symbols)

Synopsis

Astrology - Your Complete Guide to Understanding Zodiac Signs: How to Become More Successful, to Improve Your Love Life and Become Happier Today only, get this bestseller and receive a Ebook "The New Age Handbook" for FREE! Read on your PC, Mac, smart phone, tablet or Kindle device. You're about to discover how to... Have you often wondered about your astrological or zodiac sign, and maybe what it was all about? Do you wonder if you could ever understand your love, happiness, and success just by looking at the alignment of the planets and the stars of the time that you were born? The zodiac signs are a part of astrology, a science that studies the alignment of the stars and the planets. It uses complex mathematical formulas in order to determine someone's astrological sign, and these signs point to our strengths, weaknesses, and how we can be happy in our lives. It tells us so much about ourselves, and you can find the basics of that information in this book! I've put together all of the astrological signs along with their personality profiles, as well as a few tidbits of information to get you on the right path to happiness. So if you're interested in learning a little more about yourself and perhaps about someone you're interested in dating, take a look at this book! You will learn more about... Aries Taurus Gemini Cancer Leo Virgo Libra Scorpio Sagittarius Capricorn Aquarius Pisces The New Age Handbook will show you... "Ever wondered if you can improve your life with New Age solutions? Here are some great solutions on how to reinvent your life through New Age thinking!" Are you looking for something more out of life? If so, you are not alone. Many people are today and find the solution in the New Age Movement. The New Age movement adopts ideas from a number of different movements that emphasize spirituality and the spiritual conscious mind. The main idea is to enforce serenity of the mind. Customer Reviews

I have a bit interest in astrology, so I bought this book, so as to learn more about it. This is the best book for beginners who don't have much knowledge of astrology. I really learnt a lot from it and it is very easy to read. After going through this book, now I have learned to cast numerous comprehensive charts for family and friends , using no other resource than this book. It is very well written, easy to follow, and organized book. If any one of you are interested in astrology and want to learn much more beyond just the sun sign astrology, then this is a must have book. This is the perfect book for newbies and I enjoyed reading it. Highly recommended to all.

I find this Astrology book an interesting and fascinating read. It has made me understand the Zodiac Signs even more and it has also given a new perspective about them. I have always been a believer of Astrology and I know that it can help us determine and understand ourselves and the people around us. This book has been clear about this and I think that it has been an educational endeavor too.

This book of Sarah Thompson, Astrology: Your Complete Guide to Understanding Zodiac Signs: How to Become More Successful, to Improve Your Love Life and Become Happier (Free Bonus Included!) ... (Zodiac, Zodiac Signs, Horoscope Symbols), is a big help in understanding the history of Astrology, and understanding the different Zodiac Signs. I was never a fan of Zodiac Signs. Imagine when I was still studying I was about to go out of town and while waiting for the bus, I bought this newspaper and read this Horoscope section and it says that I will travel but have to go

from one place to another and will be carrying a lot of things. It sounds funny and then whoop! my aunt messaged me to go to her place so I can bring things she brought for my grandma, and then my other aunt want me to go to her office to get things for my grandma. Imagine that! Yeah maybe it's just coincidence but from then on I never read Horoscope for I think it's HORORscope hahahaWell back to the book, I bought this book to understand the personalities of each zodiac signs. I really think this is important especially if we are working with different people everyday and we can also others why they are a loner, loud, etc. This book is a big help for me so I can mingle in a positive way with others.

This is the best book for beginners who don't have much knowledge of astrology. This guide also teach us how to become more successful, to improve our love life and become happier. It is very well written, easy to follow, and organized book. If any one of you are interested in astrology and want to learn much more beyond just the sun sign astrology, then this is a must have book. This is the perfect book for newbies.Overall, This is the best book for beginners who don't have much knowledge of astrology. This book gave me some understanding of comparison of relationship between different zodiac signs. It more information about this part of astrology. This book gave me some understanding of comparison of relationship between different zodiac signs. It more information about this part of astrology. It tells us so much about ourselves, and i can find the basics of that information in this book.

I'm a fan of horoscope and I follow a daily routine of checking everyday what it will say about my day. Although the book itself doesn't talk about horoscope references but rather about how to dealt with other people under a particular sign. Learning one's sign can provide understanding on their qualities, as their traits were highlighted it also provided further information on the 12 signs. As it focuses on strength, weaknesses, happiness and love, they were detailed explicitly I can say that that this book serves as a mere guidance in understanding more on how the characters of other people are, as it is indicated by the signs they follow. However, it is still ourselves who control what we belief and what decisions we made in appreciating other people and how well we deal with them. This is an informative book recommended to all the followers of the star signs.

This book will teach you everything you need to know about the Zodiac signs. The organized and structured way in which it is written makes it the perfect start for beginners who may not have a lot of knowledge about the subject. It is a short book, but full of useful information about each Zodiac

sign and the type of person it relates to. It is well worth the read. In reading this book, you will learn more about how our early ancestors thought about astrology, you will gain a deeper understanding about astrological charts and what impact they have, controversies surrounding zodiac, as well as thorough explanations regarding each of the western zodiac signs.

I got this in the hopes of consulting it about my luck for 2016 in anticipation of the Chinese New Year. I didn't realize this was about Western Zodiac signs, and not Chinese! My bad though, because I didn't read the description prior to purchasing. Nevertheless, I had fun with this. I read about my zodiac sign and the interpretations were pretty accurate! I also read about my sister's, boyfriend's and best friend's signs, and they were on point as well. Enjoyable read, though I took note of two areas for improvement: 1. proofreading - there were some obvious typos throughout the book, and 2. the table of contents. I wish they labelled each chapter so it's easier for me to identify which to click if I need to go back to re-read something.
