I have been trying to study & learn how to develop my own Psychic gift and this is the best book I have found to do that! Great for beginners with no long stories just all the facts and information written so even a 70 year old can understand it. Emily has put it all together. The exercises are simple to learn & do. Thank you, Emily

I really enjoyed this book. For me it has answered a lot of questions that I had over the years. It has given me clarity and a new vocabulary too. I appreciate the "Claire" definitions. I never knew that there was a difference. I also found the exercises to be very helpful. I recently started a new journal. So now I will include my results from these exercises in my journal. I am interested to see what type of growth I experience over a period of time.

I liked this book. I am not a beginner at psi, and so I always get frustrated at the ABC level of most psychic development texts. This had that, but all the exercises can be adapted for more experienced psychics, and her explanations are rich and interesting. It was a great refresher course for me.

I enjoyed reading this guide, it was quick and to the point. The steps were very easy to follow, I recorded them on my phone for easy playback. I would recommend this book to anyone interested in opening their psychic abilities

This book was very helpful for someone like myself in the beginning stages of exploring spirituality intuitively. It's a very easy read and breaks down all the key points in psychic development in basic beginner steps. The exercises were a definite highlight of the book and very useful. I look forward to reading more books by this Author.

This was a great introduction book. It was easy to read, clear and direct to the points and packed with a lot of information! It's the perfect companion reference book to have. I loved that Miss Stroia succinctly mapped what would normally take a few weeks in a course to learn, into this pocket sized gem. If you're curious or just beginning to expand your mind this is a must have in your arsenal.

There's quite a lot of information packed into this quick read. I particularly found the exercises very helpful. This is a necessity for anyone looking to enhance their psychic abilities. Enjoy the journey!

As a Clairsentient and Clairscint, I appreciate the tips and exercises Emily shares in her book to help the serious reader hone in on their inherent special talent. I am definitely going to try the psychometry exercises. A must read for the curious reader who wants to learn more about starting to develop their psychic skills.
