Fairycraft: Following The Path Of Fairy Witchcraft

Synopsis

An in-depth manual for practicing Fairy Witchcraft including theology, fairy lore, rituals, holidays, and magical practices. This book aims to pick up where Pagan Portals - Fairy Witchcraft leaves off and teach interested people the comprehensive practice of this system of honoring the Fair Folk and liminal Gods by blending the old Fairy Faith with modern paganism.

Customer Reviews

I thoroughly enjoyed Morgan Daimler's Fairycraft. This book is the follow-up to her Pagan Portals Fairy Witchcraft, and goes into deeper depth for this particular practice. This book is extremely well-researched, and contains as well as a plethora of information, the author's own experiences in the tradition. This down to earth practicality is what sets this book apart from others on the subject. It is divided into many sections, each with their own sub-section detailing the matter fully and capably. Not only do you learn fairy lore and customs, but this book also provides you with rituals and rites, prayers and holiday suggestions suited to one who wishes to honour or develop a deepening relationship with the fey, the sidhe, the gods and the ancestors. Daimler's writing is sincere and

succinct, not overly flowery and not trying to impress, but rather expressing honestly what she has learned through her many years of experience in the tradition. I especially enjoyed the final portion of the book, entitled "Living Witchcraft", for it gave me a deeper insight into the tradition and its practicalities, and also the author herself. I've enjoyed all of Daimler's works, and look forward to reading more.

Morgan Daimler is easily becoming my favorite author on the craft. She packs these books FULL of her knowledge from her own experiences and well known and respected resources. Between her 2 books on fairycraft, her overflowing knowledge of especially Irish folklore and the Goddesses, The Morrigan and Brigid and the Gods and Goddesses honored within fairycraft I am learning more than I ever have about the craft. I'm not disregarding my own experiences thus far.. although I am understanding and processing many experiences more clearly through Morgan's writings and shared knowledge. She has a way with words and sharing her wisdom in a very straight to the point manner, meaning and matter. She is a fabulous teacher.

I like this book. Fairy witchcraft isn't my personal path but Daimler knows her stuff and is well worth reading. The book begins with the basics of fairy beliefs and goes on to tell you about tools, exercises, spells and things you need to know. All very useful. Add to that Daimler is an interesting and amusing writer as well as being a scholar in her field and you get a book full of good information that you can really enjoy reading.
