Edgar Cayce And The Urantia Book

Synopsis

This revised edition provides a thorough examination of the evidence of a link between the sleeping prophet, Edgar Cayce, and The Urantia Book. For over fifty years the channel for the Urantia Papers has remained a complete mystery. Speculation has suggested Wilfred Kellogg as a likely candidate, but evidence has never supported this theory. See the research and decide for yourself!

Customer Reviews

I think it's absurd to compare Cayce with the Urantia Book. Only inexperienced UB readers would draw such comparisons. There's very little in Cayce's message that agrees with the UB, and reincarnation is one of them. Furthermore, Cayce aggressively promoted himself, whereas the UB contact identity was kept under wraps at the request of the contact person. Read instead "the History of the Urantia Papers."

Love, Love, Love Edgar Cayce! If you have read the Urantia book then you must read Edgar Cayce and the Urantia book. Karen Pressler & John Bunker have put extensive hours of research into their

claims regarding this book and hands down is a must read! I could not put it down, I was completely spellbound until the end!

The Urantia book is mind blowing. And I only read a few pages. Find out it's history is more important. This book is a good start

He was very thorough in his research, and I enjoyed reading the book. He organized all the facts in order to present things in a clear and precise manner.

The material (Book) was excellent and the logic and investigation very well done. I would recommend the read, regardless of your belief.
