_____ THE ORIGIN OF THE NAME OF GOD AND HIS TRUE IDENTITY. Synopsis and Translation of the Phoenician, Ugaritic, Canaanite, Sumerian, Akkadian, and Assyrian Tablets. The name of God "Yahweh", his attributes and extraordinary (Supernatural) powers and deeds were borrowed from pagans' gods; gods the Israelites worshiped before they "created" their own god "Yahweh", who centuries later, became the God of the Christians and the Muslims. So is it fair and logical to assume that we are worshiping a "Pagans' God" or more precisely an amalgam of mythical gods? You bet! And this is exactly, the delicate, fragile and controversial topic we will be exploring, discussing and explaining in this treatise. If you are fanatically religious and you believe every word in the Bible, and all the stories rabbis, sheiks, Imams, bishops and priests tell you, then, do not read this treatise, because it could disturb you, and lead you to believe that it was written to discredit your faith and your beliefs in the Jewish Bible, the Torah, Talmud, the Christian Bible (New Testament), Jesus, the Christian Church, the Koran, and the Prophets. And this is not the case at all. The conclusions are based upon linguistic, historical, geographical, and archaeological facts and irrefutable findings, scrolls and inscriptions written centuries before any organized religion was established on Earth, and the word "GOD" was ever pronounced by or known to mankind. Vital and most important questions we must address and answer: a-God's true origin. b-Where did he come from? c-What is his real name? d-How and why did Abraham, Moses, early believers, tribes, scribes, prophets, and others unintentionally or willingly change and/or misinterpret God's name or names? e-How many names God had at the time, Abraham, Moses, and other prophets met him? f-In what original language, his name was written? What and how it was written? And how it was translated in Greek, Latin, French, English, Spanish, etc.? g-How did God himself pronounce his name? h-Who heard God first? i-When and where did the term or word "God" appear the first time in the history of humanity? And what did it mean at that time; the very first time it was pronounced, used, and later put in writing? Did the meaning change? No? Yes? Why? j-Any relation to the Anunnaki, the Ancient Gods, the Sumerians, the Phoenicians, the extraterrestrials? From the content: * The real name of God. * Allah's terminology. * Yahweh was a common Phoenician name. * The Phoenician words "Yehaw", "Yehi",

"Yaw", and "Yeou" are the origin of the Hebrew words "Yah", "Yahu", and "Yahweh".* Israelites bore the name of the Phoenician god Baal.* Appearances of the word Yahweh outside and before the Bible was written (To name a few).* The origins of Yahwehism.* Phoenicia was the original source for the Hebrew Yahweh's imagery in the Bible and the "Cherubim Throne".* Yahweh-Elohim and the Phoenician-Ugaritic Bull-Gods and the golden calves.* Yahweh, and Ea/Enki create a spring in the Garden of Eden.* Yahweh fighting the Dragon.* "The Most High" epithet.* On Monotheism.* Epilogue: Quotes from leading scholars, authors, Sumeriologists and Assyriologists.

Customer Reviews

Some interesting observations and the idea that modern religions are adaptations of some very old sources is well argued, but I have to keep in mind the author seems to believe thede elder gods are space aliens, so make sure you have a grain of salt handy.

Here's a book for reference. This book give a great foundation for understanding how belief systems are connected. The author provided references that are staggering. It would be a great addition to

any personal library. The structure of the book

Quick and to the point. Well researched and an easy read. Some editing issues but didn't take away from information provided. Highly recommend to those who are not offended by historical religious truth.

It's a Always a Good Thing to Know the Definition. Very interesting read of the meaning behind the meaning and amalgamation of names and cultures back to the historic source ... this author does an excellent job of going right to the point, a perfect read for true seekers of wisdom...

An unfocused narrative of assertions without much evidence, lacking clear, well-reasoned analysis. Perhaps, demonstration of some familiarity with the languages that the various sacral names taken from, could make a better case for the author's assertions. It would have made more sense to base this work on the English transliterations of the way these names were written. The analysis of the transliteration of how these names "sound" is not nearly as useful. E.g.: a discussion of the names "Allah" and "Elohu" seems incomplete without noticing that the character sequence (as written in the source language) is the same.

This book claimed quite a few things, but did not provide clear references where one could independently validate the sources. I would have preferred the author provide a little more evidence if he intended to debunk the existence of the God of the Abrahamic faiths.

Lafayette has clearly done research on the subject but often seems to make leaps in his logic which need some further explanation. The ideas are not very well developed. The text is fast paced and somewhat choppy. It felt like he had just binged on way too much strong coffee and then decided to write a book in 30 minutes, before the buzz wore off and he had to crash. I was especially disappointed that there is only a very limited citation of sources.

I gave this a rating of 4. It was an eye opening read. Once again proving that nothing is new under the sun. If you don't have an open mind, this book isn't for you.
