Law of One Update 8-22-16I said I would come back and rewrite my review if I felt I had been duped by the Ra Collective. I am rewriting my review. It took me a while to connect the dots, but I did find massive errors in their teaching. Either the Ra Collective is the dark side in disguise, or they are not as intelligent as they would have us believe. Read these books with caution and connect your own dots! Years ago, when I first found this material, I dismissed it because the Ra Collective said we had free will. I wouldn't read it back then because I don't believe we have free will "at all! We are individuals who have forced, controlled, limited, restricted choice. Free choice is an illusion. You don't even get to choose. The forward motion of time forces you to choose. And what happens, or does not happen, with your next time-induced, restricted choice forces your next choice. If you lack the ability, knowledge, technology, or if you don't have to power to control time and instantly manifest, then you are controlled by some other process, law, being, or system. There is no free will, just control. I was, and still am, under attack by the evil aliens, evil world governments, and our sadistic militaries. The Ra Collective talked about the Orion/Reptilian group

and their evil agenda, so I came back to see if the rest of their information had any truth to it. Except for their version of free will, I tried my best to keep an open mind toward the rest of the information. Actually, I gobbled it up. I read all five books multiple times. I thought I had found more answers to how and why things work the way they do. I was wrong.
