Customer Reviews

This book is awfully hard to put down. Who does not like good ghost stories? Love the fact that these stories are real too! Makes for an enjoyable read and makes for some great spooky Halloween stories!

OMG! This book was scary, and different. Iâ™ve read so many ghost stories, and I love how this book was original with content. I was also surprised to read so many hauntings that I havenâ™t heard or read about before. I am itching for more ghost stories now!

I bought this for a grandson for Christmas. He was very pleased with this book. He likes reading about ghost stories. If he is happy with it than I am happy with it, because he is very picky about what he reads.

For starters I want to point out that I am a huge fan of well written, suspenseful tales of ghostly hauntings but these stories were not captivating for me at all. If you like short stories that leave you wondering and you like to read about 'ghostly' legends and folk tales this might be your cup of tea, but the only 'truth' is that most of these tales are no more than people's suspicions proven in the end to be a hoax or a fraud for which the perpetrators were unmasked, some even successfully prosecuted. I wouldn't recommend unless you are fan of short stories about what people thought might be 'ghostly' because they didn't use their reasoning abilities or investigate. A "chewing gum for the eyes" read that I personally found laborious.

I am currently reading this book and find the stories interesting! They are very short but some are really good and make you wonder! I am a buff of ghost stories and I've enjoyed all these so far! If you like short stories and lots of them this will work for you!

A wonderful compilation of ghost stories to be read around a campfire or near a fireplace late at night. Don't expect any scientific explanations for these manifestations. Just enjoy the stories and sit back and think. The longer you ponder these tales the more you will want to read them again.

This book is collection of 50 short stories about the paranormal some of this short stories I have heard of before but had different names I thought this is a really interesting book full of great paranormal stories I really enjoyed reading this book.

of American hauntings as reported in contemporary accounts in the 1800s. Some are intriguing, some are disproved, some are folk tales. But they're all interesting. I would love another volume in this vein. (A keen need for better editing is why I say 4 stars instead of 5.)
