A must-read for any student new to the spiritual path. It outlines many important spiritual topics and principles, and gives guidance for how to work with spiritual hierarchy to expand and progress on one's own pursuit with God. El Morya is a stern and demanding master, but at the same time very loving... in fact, he is the closest Ascended Master to my heart... and I hope that more willing students enter under his tutelage to seek their own ascensions in the Light.

This is a very deep book. It's a book that needs reading a few times to get the most out of it. It's deceptively simple and yet so profound if you expect it to be. It's almost like the book responds to you - as you think the book is, so it is. It's the definitive book for someone who wants a master and is searching for a path which they know is there somewhere but aren't sure where.

This is a pretty good book. Some parts I had to skim over but that was just due to me looking for things that I was needing answers for. If your looking for hardcore prove it to me facts you will not

find it in this book. I think this book is for ppl who have asked questions within and have been lead to this book. You definitely dont find this book on accident. Alot of the decrees, invocations, and affirmations Ive been using with great success. This book does not have all the answers, ofcourse no one book does. But it does help alot.
